

General Inspection Checklist for Safety Representatives

This checklist can be used as a guide to help inspect a workplace for common problems. It is not an exhaustive list of items and will not cover all hazards in all workplaces. It can be completed in a single inspection or over a series of shorter inspections. The template can be adapted to suit your workplace or you can use the blank boxes to add in additional items that you want checked or items that you come across.

Area or Location Inspected:	
Date:	
Inspected By:	

No.	Item	Yes	No	Comments
1	Is the workplace clean and tidy?			
2	Is there adequate lighting?			
3	Is there excessive noise?			
4	Is the temperature reasonable?			
5	Are welfare facilities, e.g. toilets and canteen, clean and tidy?			
6	Are walkways kept clear of trip hazards?			
7	Are there trailing leads?			
8	Is there clear access to exit doors and do fire exits open outwards?			
9	Are floors and walkways slippery?			
10	Are floors wet at the entrance?
